In response to today's customer needs for Fall Protection Equipment rated for weight capacities in excess of the typical 310 lbs. standard, Safewaze is proud to announce that a majority of our Harnesses are now rated for use at a maximum capacity of 420 lbs.

The table below indicates our units now rated above 310 lbs. Updates to both our website and technical library will also provide you with a quick and easy reference to determine units that are now rated above 310 lbs.

Should you have any questions on the weight capacity of a specific Harness, please do not hesitate to contact our Customer Service Team for further assistance.
