

## New Pulley, for Rapid Confined Space Use!

### Aluminum Tripod Pulley Item #020-11025

The Aluminum Tripod Pulley is an add-on solution to the integrated tripod pulleys, creating a rapid method to add or remove any of our 3-way or winch devices. Connects easily to the tripod head anchor points.

- Weight 9.6 oz
- Aluminum construction
- Working load limit 5,000 lbs.
- Attaches to the tripod head with a rated carabiner (carabiner sold separately)
- Max use with 5/8" (16mm) rope or 7/32" (5.6mm) cable

Works with all SafeWaze Tripods and Devices

Item #019-11004
