

QUICKTRIAL

Product trials on popular items
within one week

PURCHASE WITH CONFIDENCE

QUICKTRIAL

Your purchase decisions are as safe as your fall protection equipment. The opportunity to try select products within a week right on the jobsite provides the security of a proven solution for your specific site and workers. This service is often used after the completion of QuickConsult to confirm the proper product solution.

QuickTrial service includes:

- Upfront, specific jobsite input and feedback from workers during trial
- Trial plan managed by dedicated, expert professionals
- Select inventory available for trial program*

Submit a trial request to your regional sales manager directly.

** QuickTrial program not available for all products*

QUICKTRIAL

We ensure a successful trial experience with the use of several key tools:

- **Program Guidelines⁺** to communicate standard procedures for the program
- **Competitive Analysis⁺** to establish product solutions based on customer's existing products referenced to the appropriate Safewaze cross-over product
- **Implementation Checklist⁺** to coordinate quick delivery and manage the trial details
- **Worker Feedback⁺** form to secure valuable input directly from the ones in the field using the products and allow for adjustment and improvement as needed
