

A more versatile  
anchor solution

## CONCRETE SCISSOR ANCHOR

*Versatility on the job saves you time and money. This removable, reusable anchor offers the utmost in flexibility and functionality as a system or personal anchor point.*

## An anchor that is as flexible as the needs on your job-site.

- **EASY INSTALLATION:**  
Installs quickly and easily with a cast in-place sleeve.
- **SECURE ATTACHMENT:**  
With 3-step simplicity, you're attached in seconds. The anchor moves easily with user from sleeve to sleeve to keep the job moving.
- **FLEXIBLE USE:**
  - Temporary or permanent installation
  - Vertical or horizontal application
  - Overhead or foot level connection
- **DUAL FUNCTIONALITY:**
  - [1] System anchor point for horizontal lifelines such as the Safewaze SafeLink HLL.
  - [2] Personal anchor point for SRL and lanyard connections.

### SAME FUNCTIONALITY. IMPROVED EFFICIENCY.

The Scissor Concrete Anchor offers the same functionality as our previous SW-EX100 anchor.

**IMPROVED:** This scissor anchor is easier to move – it slips easily into the sleeve by hand with no bolts or tools required.
