

SAFEWAZE ACADEMY: Next-Level Fall Protection Experience

Education and training from the ground up.

Our program engages each student. We deliver practical knowledge that transfers easily from activity in the course to safety on the job.

- **Immersive Learning:** Each course is an all-in experience combining lecture and hands-on modules both on the ground and at height.
- **Top-Notch Environment:** Facilities include a comfortable private classroom with advanced audio-visual capability – plus our impressive 4-story, 4,000 sq. ft. state-of-the-art testing and training lab.
- **Expert Instruction:** All courses are taught by Becky Danielson, Training Director. Becky is a dedicated training professional with 20 years of work-at-height experience. She currently serves as Chair of the Fall Protection Council for the Scaffold & Access Industry Association (SAIA).
- **Diverse Offerings:** Current courses include Authorized Person, Enhanced Authorized Person, Competent Person, Competent Person Trainer and Industrial Rescuer with more being added based on need.
- **Accredited:** Certificate and wallet card upon completion.
- **Refresher Courses:** Recertifications available.
- **Private Options:** Ask about custom courses.
- **Questions?** training@safewaze.com

SAFEWAZE ACADEMY: 2025 Education & Training Fall Protection Courses

Participants are required to bring gloves and wear safety toed shoes, long pants and a short-sleeve shirt. All other equipment will be provided. Lunch is included with all courses.

- **Authorized Person (4 hours):** Designed for workers at height doing a specific task with an established anchor point. Provides students with an understanding of personal fall arrest systems.
- **Enhanced Authorized Person (8 hours):** Covers all Authorized Person topics plus the fundamentals of rescue.
- **Competent Person (16 hours):** Designed for anyone who works at height as well as the decision makers and supervisors responsible for fall protection on the job site.
- **Competent Person Trainer (32 hours):** Includes the full Competent Person course then continues to cover material to equip students with classroom and practical techniques to teach the Competent Person course.
- **Industrial Rescuer (16 hours):** Designed for anyone who works at height and is responsible for the fall protection rescue program as well as rescue supervisors. Successful completion of the Fall Protection Competent Person is required.
