

XLT System

Industries: Heavy Vehicle Maintenance, Rail Yards, Industrial Manufacturing

Portable

Work at Height

Easy Assembly

15' to 25' height

9' reach

Built-in rescue and retrieval system

XLT Wheeled Accessory

The XLT wheeled accessory is designed to easily transport any of the counterweighted XLT systems on flat surfaces such as asphalt and concrete.

The included hitch mount adapter allows workers to attach the cart to a vehicle and transport it to where it's needed most.

The four wheels are equipped with a cranking mechanism to lift and position the full XLT assembly.

XLT Wheeled Accessory #A5039-72
