

TECHNICAL PERSONNEL WINCH CABLE

025-11055

Controlled Raising & Lowering for Confined Space

The Safewaze Technical Personnel Winch is designed to safely and efficiently raise and lower workers in confined space and vertical access applications. Engineered for smooth, controlled operation in both manual and powered modes, this winch delivers reliable performance, simplified maintenance tracking and durable construction for demanding jobsite environments.

Exclusive Internal Magnetic Clutch

- » Delivers consistent powered performance
- » Increases system longevity through consistent torque
- » No tools required - compatible with standard drill

- » Dual-mode operation: manual via removable handle or powered using torque limiting coupler and standard drill (sold separately)
- » Powered function allows faster lifting and lowering over extended distances
- » Integrated cycle counter tracks device usage to monitor maintenance intervals
- » Freewheel mode enables controlled, faster cable payout when needed
- » Equipped with mounting bracket for use with Safewaze Tripods and Xtirpa Systems

SKU	DESCRIPTION
025-11057	120' Technical Personnel Winch
025-11055	65' Technical Personnel Winch
025-11059	Torque Limiting Coupler

Key Specs:

Material lifting capacity: 620 lbs. (281 kg)

Max operation force: ≤ 30 lbs.

Max service interval: 10,000 cycles

Gear ratio: 1:4 manual gear ratio

1:18.9 power gear ratio
