SAME PROTECTION DIFFERENT FIT

CROSSOVER VS FULL BODY

022-1899

V-SELECT CROSSOVER HARNESS

Ideal for workers who move frequently, this lightweight crossover harness provides natural weight distribution for enhanced mobility and comfort. Adjustable torso and leg straps ensure a wide fit range, while paired lanyard keepers keep gear out of the way. Economical, secure, and built to get the job done.

- Versatile, adjustable front/sternal D-ring
- Proportionately greater mobility
- Form fitting, faster set up

021-1745

V-SELECT FULL BODY HARNESS

Ideal for workers who prefer a traditional harness feel and wear it throughout the day, this harness delivers essential support and all-day comfort. Padded air-mesh provides breathable cushioning for added comfort while working at height.

- Fixed sternal D-ring
- Added comfort with padding
- TUX style harness
